BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his Widow, or if no Widow, to his Minor Children.

Service in the **Revolution**—in the **War of 1812**—and in all the **Indian Wars**, is provided for by said Act.

And all who served the above period in the **drafted Militia of the State of Maine** in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to **receive and prosecute all claims** arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, **Purchase the Land Warrants** at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

GEO. B. MOODY,

Counsellor at Law, and Agent for Pensioners and Bounty Land Claimants.

BOUNTY LANDS.

THE hundreds of Soldiers for whom Land Warrants of less than 160 acres have been procured by

Isaac & John L. Hodsdon,

and if deceased, their widows or minor children, and all others entitled, can receive the benefit of the new Act, personally or by letter, to General ISAAC HODSDON, at Exeter, or the subscriber at Bangor.

More Bounty Lands.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. L. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston, who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

Boston, March 28, 1855 3mw6m

UNITED STATES

Bounty Land Agency.

Press Forward Your Claims!

ARMY and Navy Officers, Soldiers, both Regulars and Volunteers, Sailors, Marines, Flotilla Men, Musicians, Wagon Masters, Teamsters, Indians, and all persons who may have served fourteen days in any of the Wars of the United States since the year 1790, the law of 1855 gives each of you, who have not heretofore received a Warrant for Land One Hundred Sixty Acres!! And to all who have received Bounty Land, enough more to make One Hundred and Sixty Acres!!

In the case of the death of the person entitled to land, his Widow, or if no Widow, the Minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for land, and will supply Justices of Peace, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and all others, with the necessary instructions and blank forms, free of cost, on application, by mail or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

BOUNTY LAND!

B. H. MACE,

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120: those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

☞Mr. M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands.

☞No charge unless successful, and the highest market price PAID to those who wish to sell. *Office in Baldwin's Block, West Market Square next door to A. W. Paine's office.*

REAL ESTATE.

For sale at a Bargain!

THE subscriber, wishing to change his business, offers his *Tavern Stand*, (the well known "Mansion House,") and Farm, for sale at a "bargain".

The house is well located, and has a good run of business; is new, constructed after the most approved plan, and is thoroughly finished, painted and papered from cellar to attic.

Connected with the house is a good Wood-shed, 20 by 70 feet; Stable 36 by 74 feet; Carriage-house 16 by 64 feet; Barn 44 by 84 feet, with shed attached 20 by 60 feet. The above buildings are all new and in perfect order. The House and Stable are supplied by aqueduct from a never failing fountain of pure water.

The Farm consists of 135 acres of good land, (100 acres of which is in pasturage and tillage,) and under a high state of cultivation; cuts from 50 to 60 tons of hay, and has upon it the largest and best orchard in Hancock county.

The Stock and Tools of the place will be sold with it, if desired; also, some very desirable lots of Wood Land.

The above offers great inducements to any one wishing to purchase, as it will be disposed of at a great sacrifice.

For further particulars inquire of D. B. SILSBY, of Silsby's Express, or on the premises of

G. W. STONE'S

LIQUID CATHARTIC

—AND—

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach, &c.

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

THE LIQUOR LAW DECISION.

We find the following report, furnished by the official Reporter of Decisions, in the Augusta Age, Extra.

It will be seen that the decision effects only the power of conviction, under the second section. The section providing for seizures of liquor kept for illegal sale, and for the punishment of the persons so keeping them, remains untouched, as well as the power of the Courts and Justices in all other points. The only power wanting, is simply that of conviction and sentence under the second section. It will be seen, also, that only two of the four Law Judges actually agree in the decision—although, there being three present, the opinion stands as a decision.

Supreme Judicial Court—Middle District.

June Term, 1855—Kennebec County.

In the matter of John Hanson, on a writ of Habeas Corpus.

Shepley C. J.

From the return made by the prison keeper to the writ of habeas corpus, it appears that the prisoner was committed to prison on June 9th, 1855, by virtue of a mittimus issued by the Judge of the Municipal Court for the city of Augusta, reciting that the prisoner had been tried and found guilty by him of having on the 15th day of May, 1855, sold one quart of brandy to George W. Hue, contrary to the form of the statute, and had been tried by him and sentenced to pay a fine of twenty dollars and costs of prosecution, taxed at five dollars and sixty-one cents, and to be imprisoned in the county jail for the term of thirty days, and to stand committed till said order be complied with.

By the eleventh section of the act incorporating the city of Augusta, approved on July 21, 1849, it is provided, that there shall be established a municipal court, to consist of one judge, "who shall have concurrent jurisdiction with justices of the peace, in all matters civil and criminal within the county of Kennebec," and jurisdiction in all cases of simple larceny where the property shall not exceed in value the sum of twenty dollars. His general jurisdiction of offences, other than larceny, is to be ascertained from the jurisdiction which justices of the peace have, and they by the Revised Statutes ch. 170, are authorized to punish by fine "not exceeding ten dollars" persons convicted of certain enumerated offences, and to try all offences within their jurisdiction and to sentence those convicted according to law. They are not authorized thereby to impose a fine exceeding ten dollars, or to imprison for any time whatever. By particular provisions in other statutes they are authorized in cases of larceny to punish by a fine not exceeding twenty dollars, and by imprisonment not exceeding six months. But their general jurisdiction is not thereby enlarged. No statute has been cited or noticed giving to them a general jurisdiction of offences with power to impose a fine to the amount of twenty dollars, or to imprison a person for any time. Such a jurisdiction, if it exists, must be derived from some statute specially conferring it.

By the act for the suppression of drinking houses and tippling shops, approved on June 2, 1851, provision was made by the fifth section that "any forfeiture or penalty arising under the above section may be recovered by an action of debt, or by complaint before any justice of the peace or judge of any municipal or police court, in the county where the offence was committed." By the section referred to as above, the sale of intoxicating liquors was prohibited. Here the jurisdiction was specially conferred, but by the act approved on March 16, 1855, that act and the act approved on March 31, 1853, were repealed, saving all proceedings then pending, and leaving them in force for the punishment of all offences committed under them. Justices of the peace cannot, therefore, have any jurisdiction by virtue of the acts of 1851 and 1853 of any such offence committed since the first day of May, 1855, when the act of 1855 took effect. If they have jurisdiction to punish for offences committed since that time by the sale of intoxicating liquors in violation of the provisions of the second section of the act of 1855, it must be derived from some provision contained in that act. No such jurisdiction is conferred, or attempted to be conferred, by the second section, which prohibits the sale.

There is a provision contained in the nineteenth section, that "any penalties or forfeitures the recovery of which is not otherwise provided for in this act, may be recovered by complaint or indictment in any court proper to try the same." This does not determine what court is proper to try the same, but leaves it to be ascertained from existing laws. No provision has been found in any section of the act of 1855 expressly conferring upon justices of the peace, or municipal or police judges, any jurisdiction of the offence of which the prisoner was found to be guilty.

By the eighth section of the act they have jurisdiction to try and punish persons found to be guilty of certain offences therein named; but this does not include offences against the provisions of the second section. It is insisted that jurisdiction is conferred upon them, by implication, from provisions contained in several of the sections.

Provision is made in the twentieth section for an appeal from the decisions of such judge or justice of the peace, and for recognizances to be by them taken in cases, which might arise out of violations of the provisions of the second section.

Provision is also made for appeals from their decisions by the twenty-ninth section by language appropriate to authorize them in cases arising under the eighth section over which they have jurisdiction. Being suited to authorize appeals in such cases, no inference can be drawn that appeals from decisions made under the second section, were intended.

By the thirty-first section provision is made that "whenever by this act fine and imprisonment are the punishment, provided for the offence charged, it shall be the duty of the justice or court to sentence the convict to both fine and imprisonment." This language is applicable to offences arising under the eighth section, and no inference can be drawn that it authorized punishment to be inflicted for offences against the second section.

By the thirty-second section forms of process to be used are prescribed, and it is declared that, they "shall be deemed sufficient in law, for all the cases arising under this act, to which they purport to be adapted." Among these forms is one for a complaint to be made to a justice of the peace, that the person accused, at a certain time and place "did sell a quantity of intoxicating liquors" contrary to the form of the statute. There is also a form for a warrant to be issued by a justice of the peace on such a complaint, and a form for a recognizance to be taken by him in case of an appeal from his decision, finding the accused guilty of such an offence.

Neither of these forms contains any allegation or recital of a forfeiture of twenty dollars, or that the accused is liable to be imprisoned for thirty days. Such allegations or recitals are not necessary to their legal validity, and the omission of them is only noticed, to show, that no words are used in the forms, conferring a jurisdiction to punish by imposing a fine of twenty dollars, or an imprisonment of thirty days. They cannot therefore inflict such a punishment by virtue of those forms. And a court cannot exercise jurisdiction over an offense when it cannot inflict the punishment prescribed for it by statute. Commonwealth vs. Curtis. Thatcher's Crim. Cas. 202.

By the words "shall be deemed sufficient in law, for all cases arising under this act to which they purport to be adapted," no more is meant, than, that they shall be deemed legal and sufficient forms to be used in such cases. The mere enactment of correct and legal forms to be used for the prosecution and punishment of an offense cannot confer jurisdiction upon a court or magistrate. If so, and the words "one of the justices of the peace" were stricken out of the complaint, and the words judge of probate, or county commissioner, were inserted, then a judge of probate or county commissioner would have jurisdiction, without any other provision of law conferring such jurisdiction upon them. The same remark would be applicable to the provision authorizing appeals to be made from the decisions of justices of the peace. A provision authorizing an appeal from the decision of a court in criminal cases, cannot give the tribunal, from which the appeal is allowed to be made, jurisdiction in all such cases.

It is an established rule of law that the jurisdiction of an inferior court, or magistrate, is never to be presumed. It must be clearly exhibited.

The enactments in the various sections of the act of 1855 do clearly show, that they were made upon the assumption or supposition, that municipal and police judges and justices of the peace had jurisdiction. If from such enactments, then, jurisdiction might be conferred by implication; then it might be, if it were capable of proof, that the provision contained in the act of 1851 expressly conferring such jurisdiction, had been originally inserted in the act of 1855, and had been, upon deliberate consideration, stricken out for the very purpose of depriving them of such jurisdiction. It is said, that the intention of the legislature to confer such a jurisdiction is clearly ascertainable from the provisions of the act; and that such intention should be made effectual. The intention of a legislative body is by the law regarded as a rule for a court to determine what construction the language which the legislature has used should receive. But no rule of construction is known, or admitted, by which a clearly perceived defect or omission, in legislation, to accomplish an important purpose in criminal law, has been, or can be supplied by inferring it from language used for another purpose, not suited nor intended to supply that defect.

If the intention of the Legislature could be used legally for the purpose of making the law what they supposed it was, and intended it should be, instead of a rule of construction to ascertain from the language used what enactments it had really made, this difficulty would remain, that no person can conclude, or believe that the Legislature intended by the mere enactment of the forms, to give jurisdiction. The intention to give jurisdiction by the forms does not therefore exist. If forms alone are relied upon, the form of complaint for a single sale is not a form addressed to a municipal or police judge, and no provision is made that such form for a complaint shall be so varied as to make it applicable to such a judge.

Even in the construction of wills in which the intention of the testator is to be pre-eminently the guide of the court, that intention cannot, however clearly discoverable, be made effectual, if there be found in the will no language used by which the object can be accomplished.

In the case of Pickering vs. Langdon, 22 Me., 413, the opinion states, "But the court is not authorized to supply omissions by adding words even for such a purpose." The intention is one thing; and the execution of that intention by the testatrix, another. She must execute her intentions by the use of some language to give to the court the power to execute them, to make them effectual."

If the court were to supply a clear defect of legislation to give magistrates a criminal jurisdiction, it would exhibit an act of judicial legislation forbidden by the constitution.

The case of Commonwealth vs. Leach, 1 Mass., 59, referred to by the Attorney for the State in this County as one in which the jurisdiction of the former court of general sessions in a criminal case was implied, does not authorize such a conclusion. The court held, that jurisdiction had been conferred upon justices of the peace by the adoption, in that State, of the statutes of Edward 3, expressly conferring such jurisdiction.

The construction of this law respecting the punishment of offenses for selling intoxicating liquors in violation of the second section of the act of 1855, appears to be this. The legislature has, by enactments, provided for suitable forms to be used by justices of the peace for the punishment of such offenders, and has provided for appeals from their decisions upon the supposition, that they had jurisdiction. That supposition is ascertained to be wholly unsupported and without foundation. To hold that those magistrates have thereby acquired jurisdiction, would be to make the erroneous supposition of a legislative body the foundation, and the only foundation, upon which a jurisdiction could rest empowering such magistrates to imprison the persons of the citizens. The introduction of such a principle into the administration of criminal law, cannot be admitted.

The rule of law respecting the criminal jurisdiction of courts, is thus stated by Espinasse on Penal Statutes: "With respect however to statutes giving jurisdiction, a difference must be observed as to the superior and inferior courts. The courts above may have jurisdiction by implication, as in the cases of penal statutes, mentioned; such as Rex vs Malland, cnlr fol. 9, prohibiting any matter of public concern under a penalty, but without appropriating it, and which is a debt due to the Crown, and recoverable in the Court of Exchequer. That might be sued for in the courts above, though they are not named; *but no inferior court or jurisdiction can have cognizance of any penalty recoverable under a penal statute, by implication. They must be expressly mentioned* in the statutes themselves, *and cognizance given to them in express terms.*"

This language was adopted and sanctioned by the court in the case of Bowers vs. Green, 1 Scam., 42. In which the opinion states, "jurisdiction not having been given *expressly* to justices of the peace, we are of opinion, that the justice in this case had no jurisdiction." Whether the doctrine as stated by Espinasse, that superior courts have jurisdiction by implication, can be applicable to courts existing under our institutions, it is not now necessary to determine.

All doubt, if any exists, on this subject may be removed by presenting the provision contained in statute c. 167 §14 which is in these words: "All fines and forfeitures given or limited by law, in whole or in part, to the use of the State, may be recovered by indictment in the district court when no other mode is expressly provided."

By the twenty-seventh section of the act of 1855, it is provided, that "all fines, penalties, and costs, and all sums paid on recognizances as in this act provided, shall be paid into the county treasuries of the respective counties for the use of the State."

When therefore no other mode of recovery is expressly provided such fines and penalties were to be recovered by indictment, in the district court. The whole jurisdiction of that court was by the act of 1852 transferred to this court in which such fines and penalties are now recoverable by indictment; and for violation of the provisions of the second section of the act of 1855 offenders may, on proper complaint, be brought before municipal or police judges, or justices of the peace having jurisdiction, and may be by them bound over to answer for such offences in this court.

Political Fraternization—"Union Savers" Commencing Business Together.

The "Friends of the Constitution and the Union" and opposed to the present *State* administration, are notified in the Argus, of a celebration of the Fourth, at which Hon. Geo. Evans, Hon. Geo. F. Shepley, Hon. Josiah S. Little, Hon. Sam'l H. Blake, Phinehas Barnes, Esq., and others, are to deliver sentiments and speeches. Here is a significant coalition of the Union-saving Nebraska men, and anti-Liquor-law politicians. Two Hunkers and three Straitouts. They weave in with each other with quite as much facility as do the platforms of the two Conventions. Any man who, after reading their resolutions, doubts that the two parties substantially agree in sentiment—not only upon the liquor law, but upon the Nebraska and slavery questions—must be as blind as a bat. Both parties take in fact the position which the South desires them to take, viz: *acquiescence.* But will the *people* acquiesce?—The leaders of this Nebraska coalition will find that they do not.

Accident by Lightning.

In the severe thunder shower, which took place on Friday afternoon, the dwelling house of Widow Sidelman Sawyer, at Millbridge was struck by lightning. It first struck one of the chimneys at the top, separating the bricks and leaving no two of them together, and otherwise injuring the body, so that it will probably have to be taken down. The lightning then glanced along the wood and descended one side of the house, stripping the clap boards, boards, and studs almost into shreds, demolishing the plastering within, and striking a boy, her son, who was sitting near one of the windows, whose clothes were torn from him, his body somewhat lacerated, and who was supposed at first to be killed; but after a time he manifested signs of life by groaning. He still remains in a critical state. His face is very much bruised, supposed principally by splinters and plastering from the wall; and one of his eyes destroyed. The other is not uninjured, but on parting the lids he can, it is said, discover the light. The expense of repairing the house will be considerable.—[Communicated, July 2.

The statistical tables of mortality show a reduction in this country of the proportion of deaths from pulmonary diseases. Doct. Ayer attributes this result to the effect of his Cherry Pectoral. He also asserts that the cures from his Cathartic Pills give reason to believe they will, as they come into more general use, materially *reduce* the mortality from those particular diseases for which they are designed. From what we know of his preparations, we think he has grounds for his claims, and if he has, it is an attainment of which an Emperor might be proud. Rarely is it permitted to any one man to know that his skill is bestowing health and life to the masses of his fellow men.

Salt in the United States. Speaking on this subject, an article in the Albany Evening Journal says:

"Everywhere in the South of France, the salt made by solar and natural evaporation is a great deal cheaper than when made in boilers by artificial heat, and this solar salt costs for the 100 kilogrammes of 232 pounds (4 bushels) 8 or 9 cents. The actual cost of salt to the manufacturer in the south of France, in the last twenty years, is, consequently, per each bushel, about two cents. The fact is of public notoriety, and by some new improvement in salt works, which I myself introduced in Italy in 1848, the bushel was produced for only 1½ cents from the brine of the Adriatic Sea, which has about 2½ per cent. of salt.

In Syracuse, the greatest market of American salt, the cost to the manufacturer per bushel is three times as much, it is 6 or 7 cents in spite of the richness of the brine, which has 18 per cent. of salt. Why then so incredible a difference?—Because, according to the report of Prof. Cook of 1854, (page 14,) in the present method of manufacture by solar evaporation in Syracuse, about three fourths of the evaporating power is lost, whereas in France the whole power is controlled and so much used as to proportionately reduce the cost of the manufacture, diminishing it from 6 or 7 cents to about 2 cents."

The writer says that the same plan may be adopted here as in France and Italy, and thus save an immense sum to the consumer. It would be of signal advantage to agriculture if the price of salt could be reduced so as to bring it into use as a fertiliser, possessing as it does the power of death to many of the insects that destroy crops.

Notwithstanding the richness of our salt springs, the United States import twelve millions of bushels of salt per annum.

Is it a New Variety? *Winter Apples.* A friend writes from Brattleboro', Vt:

"I have been tasting of an apple grown in a neighboring town, the facts concerning which are so interesting that I send you some account of it.

Two large, old trees produce this variety, and the present owner does not know whether the fruit is natural or grafted. Last season these trees produced 60 bushels apples above a medium size and very fair, the trees are large bearers usually.

These were green, very sour, excessively hard and for all earthly purposes apparently worthless. Being kept till the following May a change begins to come over them. The green is exchanged for a beautiful golden russet color, and the apples begin to be eatable. Six weeks later, or about the middle of June, they become delicious, and will keep till August, being by far the latest apple to ripen I ever heard of. Yet the owner usually is willing to sell them in the fall for about 25 cents per bushel.

I think in our market, and at this season, they would sell readily at a high price, as the flavor is unsurpassed.

Yours truly,
A. P. Brown."

A Bogus Nugget.—The Havre Journal of June 11, says:

A few days ago we announced the arrival at Havre, by the Ariel, of a nugget of native gold, of the value of about 200,000 francs, which was in the hands of two miners, and was to be exhibited at the Universal Exhibition in Paris. We learn to-day from Paris that the nugget, instead of being lent to the exhibition, was presented to the Bank of France, in view of obtaining an advance on its consignment. The Bank having assayed it, found that it was a piece of lead covered with gold, upon which the roughness and the unevenness of native gold had been ingeniously imitated. An investigation has been commenced, to discover if the fraud had been committed at the diggings or during the voyage.

The Crops in England.—A correspondent of the Times, writing from Gloucester, says: I have been an observer and a cultivator of crops in general for the last 50 or 60 years, and never did I see the prospect of an abundance of every kind of produce so great and good as at present; it is not only one thing, but all.—We have the heaviest sheaf of grass I ever remember, and the corn of all kinds appears so luxuriant and so fine that no season could ever surpass it; and, I may say, come up to it.

The Expected Fall of Sebastopol.—The English press is exulting on the near prospect of the fall of Sebastopol. The London Daily News of the 14th says,

It seems impossible that Sebastopol can hold out much longer. The official despatches from Kertch state that recently large convoys of grain and flour have been regularly despatched thence to Sebastopol. This source, whence Sebastopol would appear to have been exclusively provisioned of late, is now cut off. We are not disposed to build on the unauthenticated rumors which have been flying about Sebastopol, of despatches captured at *Kertch* which contain most lamentable accounts of the ravages of disease among the garrison of Sebastopol. But there are two passages in the communication of our special correspondent, which we publish to-day, that are pregnant with meaning. On the 29th ult. he writes:

"The Russians have been burying an unusual number of dead on the north side the last few days. It is beyond dispute that the garrison are being assailed by disease and famine from within, at the same time that they are pressed by their human enemies from without. And this pressure from without must now be sensibly felt. After the capture of the Mamelon, and the works extending from it to Careening Bay, that part of Sebastopol which is situated on the east of the military harbor cannot be much longer tenable. Its capture will deprive the Russians of their arsenals and principal barracks; and what is scarcely of less importance, it will leave the ships, which still remain in the inlet of Sebastopol, denuded of all shelter from the shot and shells of the allies. Already Sebastopol totters to its fall. Nor is the position of the Russian Crimean army in the field much more secure. A simultaneous advance of the allies from Kertch and Eupatoria would compel it to concentrate itself upon Simpheropol or Sebastopol, and for this force to be cooped up in the south-western part of the Crimea is to be exposed to the same famine that is already telling so fearfully on the garrison of Sebastopol. The Crimea is lost to Russia."

Albany Lumber Market.

For the Week ending Wednesday, June 27.

The receipts of lumber continue to show a large diminution as compared with those of the last five years. It is hoped, however, that the prevailing rains will enable manufacturers to add to the fall supply, so as to bring the aggregate up to near last year's receipts. Sales for the week have been good at full prices. The constant arrivals, which, though less than previous years, are still of respectable importance, enable dealers to procure a good assortment without much difficulty. Those kinds in least supply are box boards, clear pine, hemlock 3 by 4 and 2 by 4. We note one large purchase of over 1,100,000 feet of box, which was judiciously made by a New York dealer, who anticipates a rise in prices in consequence of the diminished receipts.

An Immense Strawberry Field.—Rezin Hammond of Anne Arundel County, Md., has one hundred acres of land set in strawberries. On the 11th inst., thirty acres appeared as if his troops of pickers had not yet invaded them. The berries hung on the vines as thick as clusters of grapes, and filled the air with their delightful perfume. Mr. Hammond has employed as many as two hundred pickers this season, consisting of men, women, boys and girls. The price paid for picking is one and a half cents per quart, at which rate good pickers can make some three dollars per day. His largest day's picking has reached some fourteen thousand quarts, over four hundred bushels, and the average will not be less than five thousand. In all, he expects his picking to reach near one hundred and fifty thousand quarts, which is but a fraction short of five thousand bushels.

Brutal Affair.—A policeman at Hoboken, N. J., arrested on suspicion a negro whom he found lingering about the ferry house. The negro broke from the officer and fled, whereupon the latter pursued him a mile and a half, fired four shots at him from a revolver, and beat him terribly on the head. The last shot took effect in the negro's foot, and he was recaptured.—When taken to a station house, he was found to be horribly cut about the head, having no less than ten gashes, some of them four to five inches in length, his skull was fractured in several places, and little hopes are entertained of his recovery. The negro stated that he was going to Newark, where his wife lives. The officer is very much blamed for his violence.

New Market and Fresh Fish.

Bickford "opens the Oyster."

Grateful to the citizens of Bangor for their generous patronage for the past eight years, during which I have served them in the Old Market House, now among the ruins of the past, I have the pleasure to announce to them that, driven from my old quarters by the improvements of the age, I have the honor to dedicate a portion of the New Market, on Central Bridge, with a large invoice of *the best* that salt and fresh water affords, direct from the net and hook.

In my new and commodious quarters the inhabitants of Penobscot River and Bay, Moosehead Lake and other Ponds, will always be represented by the best of their species. A daily Congress will be held, to which my friends are cordially invited.

The Halibut with belly white,
And Salmon hard and strong,
And Cod and Shad are to be had,
With slippery Eels and long.
Mackerel and Smelts, and Lobsters red,
All in their proper time,
Will jump and come upon the run,
By dropping them a line.

I have long been engaged in a *scaly* business, but without its compromising my reputation for fair dealing. All fish that come to my net are honest, no sharks being admitted. I flatter myself that by catering to the piscivorous wants of the public during the past eight years that I have been instrumental in conducing to the health and happiness of the community—the superior merits of a piscine diet being universally acknowledged.

Still willing to devote my labors for the good of the public I respectfully invite the attention of the citizens to the supplies I am every day receiving. The warm weather is coming, and the productions of the cool waters freshly received may always be found, together with dry, salt and smoked, and shell-fish in their season, at

Stall No. 3 Central Market.

DIED:

In Howland, very suddenly, June 26th, Prince Thomas, Esq., formerly of Hingham, Mass., aged 70 years.

In Orono, Sabbath evening, June 24, Miss Elizabeth H. King aged 23 years. She died of a lingering consumption, but exhibited great patience and resignation. Naturally amiable and intelligent, she secured a large circle of friends, who lament her early departure from their society. She died in the triumphs of a Christian's hope, saying to her pastor, and other weeping friends, "peacefully—all is well."

Safely passed the river of death,
And landed on the other side. [Com.

PIANO FORTES!

WE have received the agency, for Bangor and vicinity, for the sale of

Brown & Allen's Piano Fortes,

which are acknowledged by competent judges to be, in the essential requisites of a Piano, the *best* now made in this country.

Mr. Brown was of the old firm of Brown & Hallett, (whose Pianos have been long in the market, and are much admired for their durability and purity of tone) subsequently ten years foreman in the justly celebrated manufactory of the late Jonas Chickering, Esq., where he perfected and applied his PATENT GRAND ACTION.

Piano Fortes of their manufacture are distinguished for *evenness*, pure *musical* quality of tone, and superior *elastic* action. See extract from Report of Committee on Musical Instruments, at the Rhode Island Society for the encouragement of Domestic Industry, holden September 2th to 15th, 1854.

"After a careful examination of the workmanship, externally and internally, and after repeated trials and hearings, your Committee feel prepared to say that this (*Brown & Allen's*) Piano Forte is one of the very *best* they have ever met with in the course of some *seventeen years* observation of the progress of Piano Forte manufacture in this country. In *purity*, combined with *power* and *mellowness of tone*, in *evenness* of tone from the bottom to the top of the scale; in the great excellence of the action; in thoroughness and elegance of workmanship throughout; in all the qualities, in short, which unitedly constitute a first rate Piano Forte, this instrument is, the opinion of your Committee, has not been surpassed by any Square Piano Forte hitherto produced among us, and they consider it eminently worthy of the highest premium in this department."

Read the following certificate from a well known competent judge.

—CERTIFICATE—

To whom it may concern.—I have had occasion to use, and to select for many of my friends, Piano-fortes made by Messrs. Brown & Allen, and I do not hesitate to say that their instruments are not second to those made by any other person or persons in the city, and in many of the more important points such as purity of tone and neatness of touch, durability, &c., I cannot but give to them the preference. I would therefore recommend to those who may wish to purchase, to call at 324 Washington street and examine for themselves.

PENOBSCOT

Lumbering Association.

AS there seems to be some misunderstanding as to the limits of the Boom, or in regard to its rights the following extract from the Act of 1854, in relation to the Penobscot Boom, is published for the information of all concerned, viz.

"SECTION 2d. The limits of said boom shall be the same as are prescribed in the Act of incorporation hereof, extending up the river, however, to the head of Olamon island, and said corporation shall have the exclusive right within said limits, to boom, pick up, and raft logs, and are authorized to raft the same at such places from their booms, as they shall deem necessary."

If honest men who really own logs are allowed to pick them up within these limits, other men under pretence of ownership may pick up also. And it would not be *just* to the Association, that is, to the lumbering community; for the ten cents boom rent must be paid on these logs picked up, and all the general expenses of the Association will be the same, and the cost of rafting these large logs with others of the same marks, will be trifling.

All persons are therefore forbidden to pick up logs within those limits, except by agreement with the Association, and under its direction.

DR. J. I. SCHENCK'S

SEA WEED TONIC,

—FOR THE—

Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit:

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart, Ulcers and Eruptions of all kinds, Chills and Fever, Gravel, and Diseases of the Kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females.

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it are caused by the deficient secretion of the gastric juices, and weakness of the powers of the stomach. The effects of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally. In fact the Tonic so nearly resembles the natural gastric juice that chemists even find difficulty in distinguishing them. It gives tone and strengthens the stomach, thus enabling it to secrete the proper quality and quantity of Gastric juice, and Dyspepsia and all its diseases soon disappear.

It is a well known fact that none suffer like the Dyspeptic, for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Scrofula, [illegible], all of each of them arising from a disordered state of the Stomach, and here is a newly discovered remedy, for the trifling sum of one dollar, that will cure all this train of diseases.

Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion. Is put up in quart bottles, always agrees with the stomach, and one bottle generally effects a cure. Whenever the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills accompany each bottle of the Tonic, and will be found in a recess of the bottle, covered with a label.

SCHENCK'S

MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the Liver and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develope all the results produced by a heretofore free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied, that the best medicines are those provided by nature in the common herbs and roots of the fields.

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue.

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr. J. H. Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c. &c., and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c.

New England Roofing Company,

MANUFACTURERS OF
WARREN'S IMPROVED

Fire and Water Proof Composition Roofs,

Office—1 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers, and the Public, to this much approved system of Roofing, which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and within the past year in Boston and vicinity, where it has given entire satisfaction. It is rapidly superseding the use of all other kinds of Roof, and is confidently offered to the Public, as a mode of Roofing unobjectionable in every important particular.

The materials employed are none of them subject to corrosion or rust, like the metals, nor will they expand and contract with the changes of temperature, like tin and iron, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines a greater degree than any other Fire Proof Roof now in use, the valuable requisites of cheapness, durability, and security against both Fire and Water.

These Roofs require an inclination of not more than one inch to the foot; leaving it in good condition for a promenade for drying purposes, and is of particular advantage to adjoining buildings in the event of fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used (by the old method) in raising the walls, and framing a steep Roof, still further reduces the cost of the building.

Another advantage gained, is the securing of rooms in the Upper Story, of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a Three Story building, with this improvement, not being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs are not affected by the jar of machinery—like those of Tin or Slate.

The Composition is so prepared that it is not affected by the extremes of heat or cold.

In case of injury from any cause whatever, no roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Offices.

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day.

Four to six will purge thoroughly all corrupt and venomous humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use.

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulator.

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas and kidneys, regulating each organ to a healthy action. They are not drastic, and never give pain as most purgative pills do. they stimulate the liver without endangering the patient with salivation, as mercurial pills do. containing no mineral in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder.

Female Complaints,

Leucorrhea, Fluor Albus, Whites and Irregularities of all kinds.

Billious Diseases,

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma,	Dropsy,	Inward Weakness
Bowel Complaints	Debility	Lowness of Spirits
Coughs	Fever and Ague	Piles
Colds	Female Complaints	Stone and Gravel
Chest Diseases	Headaches	Secondary Symptoms
Costiveness	Indigestion	
Dyspepsia	Influenza	Venereal Affections
Diarrhœa	Inflammation	Worms of all kinds

Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States and the civilized world, in boxes at 25 cts, 62½ cents, and $1 each.

There is a considerable saving by taking the larger sizes.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

SMOOTHING IRONS!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

STARTLING, BUT TRUE!

WHAT EVERY WOMAN SHOULD KNOW

How often it happens that the wife lingers year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health.

THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but to

PROFESSOR OF DISEASES OF WOMEN.

One Hundredth Edition, (500,000), 18mo., pp. 250.

[ON FINE PAPER, EXTRA BINDING, $1.00.]

A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES

have been sold, of which there were upwards of

ONE HUNDRED THOUSAND SENT BY MAIL,

attesting the high estimation in which it is held as a reliable popular Medical

BOOK FOR EVERY FEMALE

the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sense of modesty forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.). Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage.

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avert from you and yours, as it has to thousands, many a day of gloom and anxiety, followed by sleepless nights, the mind unfitting the mind for its ordinary avocations, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as evidenced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary to therefore to

[illegible] cases of JAUNDICE,
[illegible] cases of LIVER COMPLAINTS,
[illegible] cases of DYSPEPSIA,
20,000 cases of BAD HUMORS,
5,000 cases of COSTIVENESS,
13,000 cases of PILES,
17,000 cases of COUGHS and COLDS, and we can cure
an the number more than 200,000 [illegible] besides.

Diseased liver—foundation of the man
Was fought and conquered by great Langley's plan.
Next gloomy Jaundice, trembling fled the field,
By Langley's Bitters forced at last to yield.
Then dread Dyspepsia left the scene of strife,
Nor dared to face the glorious drought of life.
[illegible], Humors, Piles and Costiveness,
Those dreaded ills which once were such wretchedness,
By Langley's Bitters are forced to yield,
While Health and Strength united take the field.
Are you temperance folks—then this medicine is good,
No drunk nor sick will be infused.
Nor need the fond mother feel uneasy, no alarm,
To the tenderest infant it cannot do harm.
Pleasant to take and always does good.
